xperiencehr

Employee Time Means Money.

? Is your HR team experiencing frustration around each payroll run because of the chaotic timesheet collection process?

? Do you miss the luxury of real time attendance data or project time tracking?

? Do you keep your employees' time off records in various versions of excel spreadsheets and email chains?

XperienceHR Is Your People Tool.
The most flexible time off & attendance system on the market.

✓ Monitor the attendance of employees in real time at any location on the web, mobile application or by using a modern clock in terminals or you can take the route of a free work culture where trust and flexibility prevail.

✓ Designed for retail chains, logistics centres, staffing agencies and manufacturing companies focused on shifts planning optimisation.

✓ Ideal for software houses or field salespeople who need to track their project hours by client.

✓ Integrates with any payroll or HCM system (local and international) via APIs or the import-export functions. All HR data is on the cloud.

We would be happy to introduce you to our Partner **xperiencehr**

Their team will gladly discuss your specific work environment and advise you on the best possible set up of your time and attendance management workflow.
